## NOT ONLY ABOUT MONEY

**Citi Handlowy again unbeaten in the FX transaction market ranking by the *Euromoney* magazine**

**With the highest share in foreign currency transactions with corporate clients**, Citi Handlowy has topped the FX ranking published by the British *Euromoney* financial magazine for the fifth time in a row.

The bank's results have been almost twice as high as those achieved by the second place holder. The bank is also a leader in the corporate and financial institutions segment, where it has secured the first position for the third year in a row.

Citi Handlowy has been the **first bank in Poland to offer an electronic FX platform to its clients** or the "order" option, which allows clients to use the CitiFX Pulse platform to place orders for the purchase or sale of foreign currencies at a specified rate.

The transaction is carried out automatically once the specified exchange rate has been reached. In effect, the Citi Handlowy platform provides businesses with access to quotes 24 hours a day.
